

Greg Plough Biography

Greg Plough has been designing Web pages since 1995, and maintains over 1000 pages of small business and ecommerce web sites. Greg works primarily with the following internet technologies: ASP, CMS, CSS, HTML, Perl, and Java. Greg attempts to gear clients toward **Content Management Systems** which gives clients more control over their sites by enabling them to make changes and edits without the use of coding.

During his time in the US Navy from 1990-94, Greg read an article on the "new fad" sweeping the nation – The Internet. He knew then that he would be part of what is now a revolution.

Education:

Greg received a Associates in Applied Science in Computer Programming from the Maplewoods College in Kansas City, and holds the following industry certifications: CompTia A+ and Microsoft MCP.

Personal:

Greg is the father of two beautiful daughters Hannah Jean and Eileen Meri. Greg attends church at the Vineyard Church in Kansas City and is active in various community volunteer activities.
